IMPORTANT! KEEP FOR FUTURE REFERENCE

introduction

Important - Read these instructions carefully and retain for future reference

The 2 position carrier offers two comfortable ways of moving around, hands free, while keeping baby close.

- i) facing you - the traditional way to carry baby (from birth).
- ii) facing outwards - the carrier can be used facing outwards when your baby can support their own head (approximately 3 months +)

important

The carrier is suitable:

From birth to 10kg (approximately 9 - 12 months)
Facing outwards from approximately 3 months.

WARNING! Your balance may be adversely affected by your movement and that of your child.

WARNING! Take great care when bending or leaning forward.

WARNING! This carrier is not suitable for use during sports activities.

Before putting your baby in the carrier, practice putting the carrier on and taking it off to ensure you are familiar with all procedures.

Always check all the buckles and fastenings are securely closed and the straps correctly fitted and adjusted before using the carrier.

Be aware that your child will suffer from the effects of the weather more quickly than you.

Take frequent breaks as you and your child can become tired.

The straps, buckles and their attachments should be inspected regularly for signs of wear or damage.

Never use as a child restraint in a vehicle. Always use an approved vehicle child restraint.

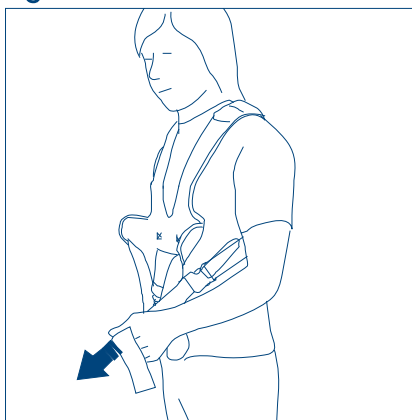

facing you

fig 1

Pass the shoulder straps over your head, crossing behind your back, and fasten the buckles at both sides of the carrier.

fig 2

Adjust the shoulder straps so they are a snug fit around you.

fig 3

Sitting down, release each of the velcro fasteners and buckles and lay the carrier on your knees.

Place baby into the carrier.

facing you

fig 4

Remaining seated, attach the velcro fasteners on both sides of the carrier, ensuring the leg openings are not too tight around baby's legs.

Fasten each of the four buckles.

fig 5

Adjust the buckle straps so the back support fits comfortably and securely around baby.

Tuck the ends of the fabric straps in to the openings in the sides of the shoulder straps, and attach the velcro fasteners.

Attach the dribble bib if required.

fig 6

If required, the adjustable head hugger can be attached to the velcro fasteners on the inside of the head support.

fig 7

Tuck the ends of waist strap webbing into the tabs to keep tidy.

facing outwards

fig 8

Pass the shoulder straps over your head, crossing behind your back, and fasten the buckles at both sides of the carrier.

fig 9

Adjust the shoulder straps so they are a snug fit around you.

fig 10

Sitting down, release each of the velcro fasteners and buckles.

Place baby into the carrier, facing forwards.

Attach the velcro fasteners on both sides of the carrier, ensuring the leg openings are not too tight around baby's legs, then fasten the lower two buckles.

Fold the head support down.

forward facing position

fig 11

Remaining seated, fasten the top buckles, above or below baby's arms as most appropriate.

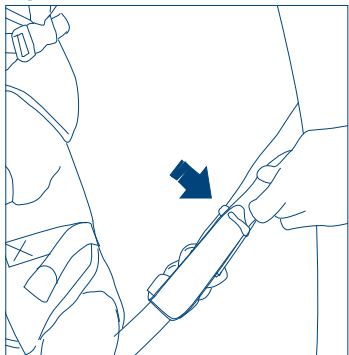

Tuck the ends of the fabric straps in to the openings in the sides of the shoulder straps, and attach the velcro fasteners.

fig 12

Adjust the shoulder straps so baby's weight is distributed evenly in the carrier.

fig 13

Tuck the ends of waist strap webbing into the tabs to keep tidy.

care of your product

■ Remove the dribble bib and wash separately.

■ Buckle all straps before laundering.

■ Machine wash separately.

■ DO NOT USE CHLORINE BLEACH.

■ Tumble dry 10-15 minutes using low heat.

■ Remove immediately.

■ Do not dry clean.

■ Do not iron.
